- MERN Stack Training Excellence Technology, Chandigarh(03 Sep 2024 – 03 Mar 2025) Achieved Grade: A+

PROFILE

Creative and self-starting Full-Stack MERN Developer with a passion for building intuitive, innovative, and impactful applications. Avid lifelong learner with a strong ability to simplify complex problems through efficient and scalable solutions. Skilled in designing and developing user-centric web applications that enhance experiences and improve lives.

- Proficient in Node.js, React.js, JavaScript, HTML5, CSS3, and Bootstrap.
- Familiar with source code management using Git and SubVersion (SVN).
- Skilled in system analysis, end-user requirement evaluation, and troubleshooting complex systems.

PROJECT

Car Buying and Selling Application

Developed an online platform that enables users to buy and sell cars in a user-friendly environment. The website allows individuals to list their vehicles for sale, browse available listings, filter results based on various criteria, and securely complete transactions. The platform also features user authentication, a review system, and an admin panel for managing users and content.

LANGUAGES

- Hindi
- English

HOBBIES

- Exploring new technologies and frameworks
- Reading tech blogs and articles
- Problem-solving and competitive programming
- Listening to music for relaxation and creativity
- Playing volleyball for fitness and teamwork

E-Commerce Application (MERN Stack)

Built a full-stack e-commerce platform using the MERN stack, featuring product listing, shopping cart functionality, secure payment integration, and user authentication. Implemented an intuitive UI/UX, real-time inventory management, and an admin panel for managing products and orders, ensuring a seamless shopping experience.
